

Dear Sir/Madam,

Please be advised that I back the Do Not Call Law 1,000%. I have had an unlisted number for 30 years and still those clowns call us. If I want their product I will call them. They may have a right to sell their wares but I have the right to be left alone. Now they even call us on our cell phones!! It's such a great joy to be able to sit down at dinner and not be bothered by telemarketers thanks to Mr. Codey's bill. Thank You Governor. Please do not weaken what the people in New Jersey have wanted for so long.

Sincerely,

Rich Desmond
